

P/N# 38104
2010 Camaro Chassis Brace Spacers
Installation Instructions

Thank you for your purchase of this Hotchkis Performance product. Your spacer set was designed with the performance and durability you've come to expect from Hotchkis Performance.

This spacer kit is intended for customers who purchased the Hotchkis 20104 Chassis Brace kit and need additional clearance for large tube exhaust systems. This kit allows for ½" of additional clearance. Please note that ground clearance will be decreased by the same amount, so be conscience of your surroundings and how you drive your Camaro on the street.

Spacers install between the Hotchkis Chassis Brace and the vehicle. For the rearward mounts, you will still use the original dogbone spacers along with the aluminum spacers. The aluminum spacer should mount below the dogbone spacer. Longer bolts are included in this kit, however you will be required to reuse the nuts from the chassis brace kit. The 2 shortest M10 bolts go in the front. The other four M10 bolts mount to the center section. The larger M12 bolts mount in the rear brackets.
